Memorandum

To Joe Morreale Date April 25, 1977
From Paul L. Brunner
Subject WPC-Plant No. 150 - Truck Engine Repair

COPIES TO:

We are enclosing our Requisition No. 36 covering engine repairs for our Unit No. 150, estimated to be \$2,500.00, and request securing prior council approval to get this job going as soon as possible.

INFORMATION - Unit #150, International Harvester 10 yard tandem dump truck, year 1972, mileage 26,000 (actual running hours much higher because of engine running while waiting to be loaded.)

Body, frame, tires, and dump body are in good shape, had new clutch installed last week.

Engine has been throwing oil off and on for two months which could not be fixed by City Garage. Unit was taken to Harvester Garage Thursday April 21, 1977. They pulled the head and found crack between two valves which could not be repaired. Also noted pistons, liners, etc. worn indicating a complete engine overhaul.

They estimated the cost to repair present engine at \$2,400.00 and to install new engine at \$2,500.00. The new engine would have full warranty.

Of our five 10 yard dump trucks we have only one in operation, that being Unit No. 163.

No. 151 is not safe to drive, Johnson could not get it repaired and recommended trading it in for a new unit. This is the one hit by a train at Norfolk & Western Glasgow R.R. crossing.

No. 37 is still at Allen County Motors and may be finished this week. This is the unit which was run off our dike road by one of our laborers last year. Now has its second engine replacement.

And 150, the unit we are requesting to have the work repair job.

To keep our sludge removal operations going we need at least three trucks operating full time.

Paul L. Brunner, Superintendent
Water Pollution Control Plant
